

Thursday December 2nd 2021

Hello from the Regathering Task Force!

As you can imagine, the Task Force has been working hard to stay on top of all the changes with COVID. Our team will be meeting next week to take a look at our COVID protocols and determine if we have to change anything in the new year. For now, we are staying the course and following the CDC guidelines which include masks being required when transmission rates are at substantial or high levels. Currently, Fairfax County is at substantial meaning that masks are again required at all services and indoor church activities for everyone regardless of vaccination status. If you have any questions, please contact Krista Gauthier at kkgauthier@gmail.com. Thank you
